Education

2013-2016 **M.LArch., Landscape Architecture, GPA: 3.76**

Department of Architecture and Urban Planning, Shahid Beheshti University, Tehran, Iran

Thesis: "Improvement of Rural Context of Kharv, Neyshaboor Region"

This study approaches practical methods to implement design recommendations using ecological stability solutions. As a result, this study suggests maintaining the valuable natural rural context due to its rich cultural background as well as tourism development potentials.

2009-2013 **B.Arch., Architecture, GPA: 3.78**

School of Architecture & Environmental Design, Shahrood University of Technology, Shahrood, Iran

Thesis: "Sustainable Educational Facility for Young Children with Environmental Design Approach"

Proposed certain criteria that are more preferential than others for sustainable school buildings and presented architectural design. Some of these criteria are the appropriate lighting organization, the quality and the density of the light, benefiting from daylight in the most rational manner, the sound comfort in the places, acoustic requirements, and convenience for hygiene, natural ventilation, air conditioning, energy efficiency, and green spaces.
